

## Task 1 Introduction

This room breaks each OWASP topic down and includes details on the vulnerabilities, how they occur, and how you can exploit them. You will put the theory into practice by completing supporting challenges.

1. Broken Access Control
2. Cryptographic Failures
3. Injection
4. Insecure Design
5. Security Misconfiguration
6. Vulnerable and Outdated Components
7. Identification and Authentication Failures
8. Software and Data Integrity Failures
9. Security Logging & Monitoring Failures
10. Server-Side Request Forgery (SSRF)

The room has been designed for beginners and assumes no previous security knowledge.

**Answer the questions below :**

1. Read the above.

A. No answer needed
